

## K-LOCKERS

KerMac's Locker systems offer custom designed lockers to create easy to use and durable solutions for your storage needs. Available in 6mm and 13mm compact laminate you can find a design and colour to accommodate your application and budget. These modern lockers are perfect for changing rooms, gyms, swimming pools, schools and workplaces where a robust system is needed. Compact laminate is a fantastic option for high abuse and wet environments where today's products need to be strong, durable and moisture resistant.
