

LAMINEX® STRUCTURAL BOARD

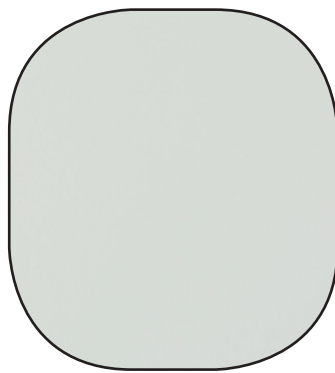

Laminex® Structural Board is a hardwearing two sided panel comprising of decorative melamine saturated paper bonded to 18mm low formaldehyde (E0), moisture resistant MDF. Special technology gives Laminex Structural Board improved wear, abrasion and impact resistance properties when compared to LPM products.

The large sheet size of 3600mm x 1800 mm makes it suitable for both horizontal and vertical applications. Laminex Structural Board can be used for interior applications such as partitions, table tops, cupboard doors, built in furniture, commercial shelving, office furniture and school furniture.

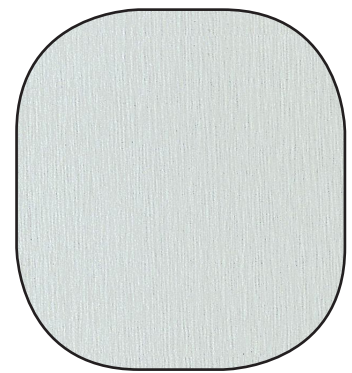

Please refer to the technical data sheet available on our website for more information.

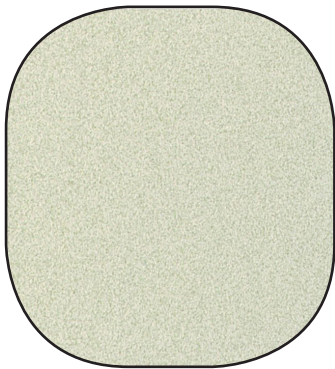

Polar White

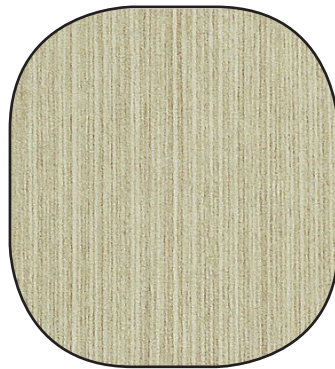

Oyster Grey

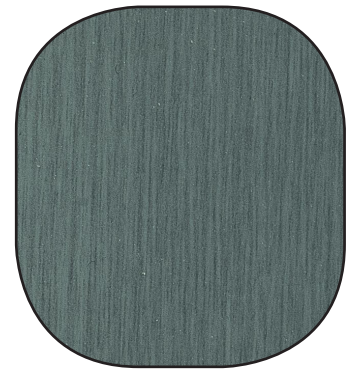

Zincworks

Platinum Micro

Oyster Linea

New Graphite

Laminex® is marketed and distributed by Laminex New Zealand, a division of Fletcher Building Products Ltd. The colours of the photographs depicted in this flyer are as close to the Laminex range as modern photographic and printing processes allow. The colours shown are available at time of publication, but are subject to availability and may be withdrawn at any time. Laminex Structural Board is no different from any other product in that darker colours will show scratches and superficial wear and tear more readily than lighter colours or lower gloss finishes. Please obtain a copy of the terms and conditions of the Laminex 7 Year Limited Warranty from Laminex New Zealand or visit www.laminex.co.nz. Copyright Reserved 2016, Laminex New Zealand.
