

LAMINEX® HPL

Laminex®
Inspire your space

A background image showing a kitchen counter with a white spray bottle and a grey bowl. The text is overlaid on the right side of the image.

GENERAL CARE

- Avoid scourers and abrasives as they will damage the surface.
- Don't place hot objects, appliances or pots straight from the oven or cooker onto your Laminex laminate surface.
- Don't cut on the Laminex laminate surface.
- Keep waxes and polishes well away as they dull the natural shine.
- Do not use strongly acidic, alkaline cleaners or bleach for normal cleaning as these might etch the surface.

Streaks

Streaky marks sometimes show on dark colours after cleaning. An all-purpose cleaner such as Ajax Spray n Wipe usually removes them.

Grease

Using a mild dishwashing detergent in hot water will remove greasy marks. If needed, dab, wait and wipe away. Finish with an all-purpose cleaner such as Ajax Spray n Wipe.

Spills

Laminex laminate surfaces resist staining from most household chemicals. With some accidental spills however, prompt action is essential. Wipe off beetroot and berry juices, first aid preparations, concentrated bleach, oven cleaners, dishwasher detergents, artificial dyes, hair colouring and solvent-based pen ink immediately. Specialty glues such as Super Glue can also be removed straight away with acetone (nail polish remover).

Stains

If the stain won't budge with Ajax Spray n Wipe, try methylated spirits or dab the stain with a diluted bleach mixture (1 part bleach to 8 parts water); leave for 3 minutes then wash off with water and dry. Finish off with Ajax Spray n Wipe. Please note that bleach may irreversibly damage the laminate surface.

Scratches

Laminex laminate surfaces will withstand normal wear and tear, but can be damaged by scratching or cutting with utensils, knives and unglazed pottery. Darker colours

will show scratches more readily than lighter colours. In general, dark colours and high gloss surfaces require more care and maintenance than lighter colours or lower gloss colours. To minimise scratching, always place and lift objects from the surface - never drag or slide them across the surface.

SPECIFIC CARE

Laminex Laminates

A damp cloth will remove spills and greasy spots. Rub with a clean dry cloth to bring back brightness. Occasionally clean with mild dishwashing detergent. To remove heavy build-up of dirt use cleaners such as Mr Muscle or Ajax Spray n Wipe spray cleaners.

LAMINEX high pressure laminate is a hard-wearing stain & heat resistant product available in a wide range of colours & decors
